PFIZER COMMUNITY SERVICE GRANT
Local Funds are available for your project! SUNY Downstate is fortunate to have received an educational grant from Pfizer Pharmaceutical to conduct community health education programs. Each outreach program is envisioned as a 1-2 hour session on a health education topic directed at a target community audience. The audience could be children, teenagers or adults in the borough of Brooklyn. Ideally, the program should be offered in a community location, which is convenient to the target audience, to encourage attendance. Topics or subjects, which were funded previously under this grant, will not be considered again. The application form, which details more information about the guidelines for submission, is posted on the Student Affairs section of the SUNY Downstate website. Just select “student newsletters.”
