TIPS ON RANKING RESIDENCY PROGRAMS
But first, some senior business.
Senior Requirements

✓ Make sure you have enough credits to graduate-taking into account elective maximums - reading electives, research, specialty and off-campus
✓ REQUIRED clerkships and electives—don’t jeopardize anything at this late date
Senior Requirements

- Emerging Concepts in Medicine
  - March 3 - March 14, 2008
  - Lecture time commitment 9am - 12pm
- Match Week  March 17 - March 20
- Transition to Residency - Monday, March 24 and Tuesday March 25
Senior Requirements - GQ

• Every U.S. medical school senior is required to complete the Graduating Student Questionnaire (GQ) on the web
• There is a link when you enter your rank order list, OR go to: www.aamc.org/gq
• **Deadline:** Match Day
• Must be completed in order to pick up graduation tickets on Match Day
MATCH WEEK 2008

- Monday, March 17
  Noon EST
  Did I Match?
  (on the web)

- Tuesday, March 18
  Noon EST
  List of Unfilled Programs
  (Unmatched Applicants can contact Unfilled Program)

- Thursday, March 20
  12 Noon    Alum Aud
  Match Day!!
  Open Envelopes!

  1 PM EST (on the web)
  (Where Did I Match?)
What to consider when putting your rank list together...
Things to consider when assessing a program . . . . .

- Quality of program
- Importance of teaching
- Research opportunities
- Fellowship Placement
- Happiness of Residents
- Did you like the people there?
Some more things to think about..

- Location
  - do you have a good support system close by?
  - Possible future place of employment

- Remember that residency is SHORT term but may have future implications.

- Housing/Salary
Things to consider … .

- If you haven’t already done so – talk to Downstate grads at the institutions
- Speak with Specialty Advisors
- Are you a good fit for the program?
- Is the program a good fit for you?
- GUT feeling
TIP# 1  Rank your programs in true preference order

- There is no secret to trying to outwit the matching process.
- No student with a lower number on the program’s rank list can take your spot, unless you match to a program higher up on your list.
True preference order

- Example: If a program ranks you #1 and that program is #15 on your list, no student can take your spot in the program unless you match to a program higher on your list.
Tip #2  Feedback from programs … big grain of salt

- Phone call or e-mail from a residency program director stating you will be ranked highly,
  - Do not assume you will automatically be matched to that program.  **Do not shorten your rank order list because you believe you have been guaranteed a spot.**
Dear Applicant:

We have thoroughly enjoyed your visit with us and it is clear that you will excel wherever you choose to go.

You represent the kind of candidate that has traditionally done well in our program and we hope to have the opportunity to work with you in the coming year.

Yours sincerely,
Program Director
Tip #3  DO NOT SHORTEN YOUR LIST

- The competitiveness of a particular field or residency program may change and fluctuate.
  - Program that normally goes to #40 to fill may only go to 25 this year.
- All students should rank programs on their list they consider to be “safety” programs to increase their chance of matching.
DO NOT SHORTEN YOUR LIST

• You will be matched to the highest program on your list which ranked you high enough to be matched

• Do not shorten your list in fear that it will increase your chances of not matching to programs higher on your list. That is not the way the match works.
DO NOT SHORTEN YOUR LIST

➢ To increase your chance of matching, list all programs you interviewed with, but only programs to which you are willing to go.

➢ SCRAMBLING IS NOT A STRATEGY!
The Match is a binding contract

- Do NOT list programs on your list which you have no intention to go to - you have signed a contract through the NRMP, SF Match or AUA registration form and you are legally bound to keeping that agreement.
ADVANCED SPECIALTIES
(Not Early Match)

• You must rank a list of preliminary programs for each advanced program.
• If the advanced program/specialty is competitive or your list is not long enough, you may rank preliminary programs at the bottom of your advanced program list to try to secure a one year spot.
ADVANCED SPECIALTIES

• If you do not list preliminary programs at the bottom of your advanced program list, and you do not match to an advanced program, the matching computer program does not automatically access your list(s) of preliminary programs linked to the advanced programs.

• The preliminary programs must be ranked at the bottom of the list of advanced programs in order to obtain a one year spot in the event you do not match to an advanced program.
NRMP Rules

- Programs can take US seniors only through the NRMP or other early matches.

- You can express interest in a program but you cannot ask how you will be ranked, nor misrepresent how you will rank the program. **Timing of e-mails - prior to Feb 1**

- A program cannot demand to know how it will be ranked by the applicant.

- Applicants and programs are bound by the results of the Match.
Second Looks

- Unless a program specifically said it is important to go on a second look to express your interest, it is not necessary to go.
- If you do go, you should only go to one or two programs, and primarily to help you make your decision.
- Do not go unannounced ... call to make sure it is appropriate and make an appointment.
Early - SF and AUA Matches

• For Urology or Neurosurgery… if you are under the impression that you do not need to enter a PGY-1 list through the NRMP match for your programs – call them to confirm this.
Thursday, February 14th

- The computer teaching lab in the LRC in the library will be available to you all day on February 14th for Rank Order Entry.
- Dean Christoforou will be staffing the room from 10am to 12Noon and 2pm to 4:30pm will be offering guidance and assistance.
- All students in a couples match should make an appointment with Dean Christoforou.
- Come with your classmates to complete this important task together and get verification it was done correctly. : )
Entering NRMP Rank Order List

- Review ROL Applicant User Guide
- Have your AAMC ID (Applicant Code) and Password to login
- Couples must register both partners’ AAMC IDs in their ROL rank order entry
- www.nrmp.org
Welcome to the NRMP Match Site

NRMP Fees

- **Primary ROL**
  1-20 programs: No charge
  Additional programs $30/program ranked

- **Supplemental ROL(s)**
  1-20 programs: No charge
  Additional programs $30/program ranked on all supplemental lists combined
How the Match Algorithm Works

• Applicant proposing

• Starts with an attempt to place an applicant in the program ranked #1 by the applicant

• A tentative Match occurs:
  > if the program also ranked the applicant and the program has unfilled positions
  > if the program is filled but the applicant is ranked higher than another applicant tentatively matched to that program
How the Match Algorithm Works - continued

No Match:

> if the program did not rank the applicant

> if the program ranked the applicant but is filled with other more preferred applicants

Couples the algorithm places a couple in their highest ranked pair of programs where both matched

Final Matches

> When the algorithm completes its cycles, all tentative matches become final

More information; http://www.nrmp.org
Summary

• Prepare a rank order list worksheet with program codes in order of preference before entering “My Rank Order List”

• Be sure to certify your rank order list

• Do NOT make 11th hour changes to your rank order list - they are usually not well-thought out.

• Complete your list at least 2 days before the February 27 deadline (9 pm) Servers on the deadline date may be overloaded and slow
For more information about the Match, visit the NRMP website

www.nrmp.org
