Things to Consider when Designing your Senior Schedule

❖ YOU will create your schedule, in consultation with your Clinical Advisory Dean

ulator with your Clinical Advisory Dean

✓ Use the information given at departmental info mtgs
✓ Downstate electives in field(s) you are considering and will generate a letter of recommendation
✓ Possible off-campus electives timing
  ✓ July generally not a good idea... new interns; hospital chaos
  ✓ Do Downstate specialty elective first

➢ Timing of Step 2CK – Ideally April through June 2020
➢ Timing of Step 2CS - Ideally August through October 2020
  ➢ BUT No Later than November 1, 2020

➢ Most students do not take time off to study for Step 2CS. Practice, practice, practice.
Most residency programs require 3 letters.
