Course Reference Numbers
It is very important to note that Course Reference Numbers (CRNs) are term specific. This means that a CRN in the spring semester can be a completely different course in the fall semester. Pay attention to the term and the course you want. Make sure to check your registration carefully. It is your responsibility to register for the correct requirements. We have marked the CRNs in “yellow” on the course listing to help you identify them.

Required Subinternship in Medicine/Pediatrics/Surgery

All students must register for one of the required Subinternships in Medicine, Pediatrics or Surgery sometime during your Advanced Year (MS4). You are registering for the month you want NOT the site even though there may be a default site associated with each section. The individual department will contact you directly for your site preferences (if applicable).

Course Catalog

The online course sections listings will be updated throughout the registration period. It is important to read the course descriptions also, which can be found within Banner Self-Service. Please note that the course catalog is subject to change without notice throughout the academic year.

You will enter the 4-digit “CRN” to register for your course. The CRN identifies the section. CRN’s are specific to a particular semester. Therefore, please make sure you are in the correct term for which you are attempting registration and have identified the correct CRN. You are responsible for registering for the correct course(s).

Clinical Schedule Planner

You will submit your completed Clinical Schedule Planner signed by your clinical advisory dean by March 12, 2021. Otherwise, your schedule may be dropped (no one wants your schedule to be dropped so submit your Planner by the deadline).

Other Scheduling Options

➢ All other registrations (i.e. research electives (other than the REP requirement), off-campus electives, tailor-made electives, etc.) are accomplished by using the "Proposal for Extramural/Tailor-Made Elective Form." Make sure to read the instructions very carefully for getting credit for these experiences. All course registration must be completed PRIOR to starting a course. NO RETROACTIVE CREDIT WILL BE GRANTED. THERE ARE NO EXCEPTIONS.
➢ Changes to the required Emergency Medicine clerkship and Primary Care II after April 16 can be made by completing a "Request for Clerkship Change Form" pending availability. Signature of the Course director is required.
➢ Changes to required Core Year Clerkships are not permitted.

All forms can be found at http://sls.downstate.edu/registrar/forms.html

A Few Important Notes

➢ Spring 2021 consists of April (second half only), May and June 2021. Click here for the calendar dates.
➢ With prior permission, you may take your required Primary Care II clerkship and/or your ICU requirement at an away institution (COVID rules pending). It will NOT count against the 8-week maximum for away electives.
➢ You are not registering for your sites unless otherwise noted (exception: Req SubI generally lists HSCB as the default site).
➢ When taking Away Electives, Research Electives (other than the REP) and Tailor-Made Electives you must follow instructions for receiving credit and submit the completed form and accompanying documentation at least one month prior to start date. NO CREDIT WILL BE GRANTED IF THESE COURSES ARE NOT ON YOUR SCHEDULE BEFORE THE START DATE! There are no exceptions.
➢ No add/drop for any course is permitted less than one month prior to its start date.

If you have questions about what to register for in the Spring 2021 semester, some suggestions are:

➢ Take the rest of April 2021 to study and take Step 2 CK (strongly encouraged).
➢ Take required courses like Primary Care II, or the required Emergency Medicine clerkship.
➢ Take your required SubI in Internal Medicine, Pediatrics or Surgery if you are going into one of those fields.
➢ Take an elective in an area of interest.
